# Initial Release

- Next generation of Open-Xchange groupware server and client
  - AJAX based web GUI
  - Java API, JSON, WebDAV
  - Groupware functionality: Contacts, appointments, tasks, infostore
  - High scalability and performance
  - Released under GPL (server) and CC (GUI)
- Server-side Eclipse
  - OSGi – Equinox
  - Eclipse plug-in architecture

## Class CalendarObject

```
java.lang.Object
├── com.openexchange.groupware.container.SystemObject
│   ├── com.openexchange.groupware.container.DataObject
│   │   ├── com.openexchange.groupware.container.FolderChildObject
│   │   └── com.openexchange.groupware.container.CommonObject
│       └── com.openexchange.groupware.container.CalendarObject
```

Direct Known Subclasses:  
[AppointmentObject](#), [Task](#)

```
public abstract class CalendarObject
extends CommonObject
CalendarObject
```

# Developed during Q1 and Q2

- Installer
  - Easy installation for Ubuntu 6.06 LTS 64bit
- Administration interface
  - Management of users, resources, groups
  - Configuration of server and OS
  - Monitoring of server
  - Maintenance (automatic updates, support requests, backup and restore)
- GUI optimization
  - More Drag and Drop
  - Click to edit
  - Performance optimizations
  - Customizability of GUI (skins, themes)

# Wiki OXtender

What is the Wiki OXtender?

- The Wiki OXtender adds to the groupware (server and GUI) the ability to open documents inside the web GUI, to edit them and save them in any format.

What does the initial version do?

- With the initial version users are able
  - To display documents in InfoStore (odt, doc, rtf, ...)
  - To edit those documents
  - To save those documents in odt, doc, html, pdf format

What is the visionary goal of the Wiki OXtender?

- The visionary goal is to get rid of file formats for text documents, to offer wiki functionality in all modules and to extend this functionality to spreadsheets and presentations.

# To be started in Q3/Q4 2007

- New modules
  - Projects  
Combines users, contacts, tasks and documents.
  - Forums  
Allows users to discuss.
  - Blog/Wiki  
Allows users to maintain and publish information

# Accompanying Measures (unscheduled)

- Infrastructure
  - Mailinglists
  - Demo system
- Documentation
  - Manuals
  - HowTos
  - FAQs
- Processes
  - Code contribution
