

# Partnering with Open-Xchange will energize your business

keep in touch **OPEN·XCHANGE**

**Open-Xchange is a mission-critical Linux solution that integrates with your customer's existing infrastructure. Attract new business and expand your customer base by offering the leading Open Source collaboration solution.**

Value Added Resellers, System Integrators and Consultants, Developers and ISVs are invited to join the Open-Xchange Partner Program and discover new opportunities. Open-Xchange's partner program is designed to be fair and equitable and does not require you to pay an annual partner fee to become a member. The Open-Xchange partner program offers the following benefits:

## Member

Member is our entry level program. Enrolling at the Open-Xchange Member level in Open-Xchange Partner Program gives you access to tools and resources that help you to increase your Open-Xchange expertise and get it to market.

## Certified

The Certified level is for committed partners with certified know-how. It recognizes companies that have proven their commitment and expertise in Open-Xchange and Linux technologies. The Certified Partner status assures customers that these partners have the experience and resources to support in Open-Xchange projects at the best.
